

Performance Hand Wrap

Engineered to provide the ultimate in pallet wrapping total cost savings for your most difficult hand wrapping applications. Fortitude hand wrap also provides increased wrapper productivity and film yield, while reducing shipping damage.

Engineered to Perform

Our industry-leading manufacturing technology creates a unique cast multi-layer film blend that provides superior roll finishing such as reinforced edges, air entrapment, and oscillating wind. This creates a premium film that has:

- Superior cling
- Exceptional clarity
- Edge hang reduction features
- Superior puncture and tear resistance
- Great film stiffness
- Suitability for cold wrapping environments
- Easy to handle rolls
- Nuisance free wrapping
- Superior "C" load retention
- Leading load holding force

**Quality and consistency
you've come to expect**

Our latest hand wrap offering combines over 25 years of industry-leading product innovation to deliver our most advanced and valuable offering yet. Fortitude provides the ultimate in pallet wrapping cost reduction.
